**Port-au-Prince air traffic control tower damaged -  
flights rerouted**

NBC reports Port-au-Prince air traffic control tower has been severely damaged, resulting in re-routing of flights by other Haitian air traffic facilities. May contextualize conflicting reports of 1) airport closure and 2) incidence of aircraft take-off.

2010-01-12 04:08:00

### **Eye-Witness Report from Hotel Oloffson**

Tequila Minsky, a New York-based photographer who is staying at the Hotel Oloffson in Port-au-Prince – which was the model for the Haitian hotel in Graham Greene's novel "The Comedians" – told my colleague Patrick Witty, a photo editor on the New York Times foreign desk, what she saw immediately after the earthquake. She had arrived at the hotel just two hours before the quake struck, shaking the walls of her room shook and knocking things off it.

She immediately went out and started taking pictures on the surrounding streets. The wall at the front of the hotel had fallen down and killed someone. A number of nearby buildings had collapsed, trapping people. A woman was crying and saying, "My uncle, my uncle." A bank building was very badly damaged in the Rue Capois which runs along the side of the hotel. People were screaming. "It was general mayhem," she said.

By 6:30, she said, it was dark and fires were burning downtown, near the shoreline.

2010-01-12 11:16:00

### **Collapsed Building -- People Trapped**

My mother is part of a medical team that had just arrived in Port-au-Prince. We received a text that she and two others are trapped beneath the rubble of their guesthouse:

Wall's International Guest House  
Delmas 19, Rue Mackendal #8

2010-01-12 09:55:00

### **Canape Vert road destroyed**

Canape Vert, one of the main roads that leads from the downtown area of Port-au-Prince to Petionville has collapsed near the area of Delmas 60. Sections of the road slid down the mountain onto homes which were built into the mountainside.

2010-01-13 10:31:00

### **MSF Teams Set up Clinics to Treat Injured**

The Martissant health center in a poor area of Port-au-Prince had to be evacuated after the earthquake because it was damaged and unstable. The patients are now in tents in the grounds and the medical staff have been dealing with a flow of casualties from the town. They have already treated between 300 and 350 people, mainly for trauma injuries and fractures. Among them are 50 people suffering from burns—some of them severe—many of them caused by domestic gas containers exploding in collapsing buildings.

2010-01-13 11:01:00

### **Karibe Hotel Collapsed**

The Karibe Hotel and adjoining apartments have collapsed. My brother and his three daughters - aged 2 to 6 are trapped inside one of the apartments in the Karibe compound. His wife, Emily Sanson-Rejouis can hear the baby cry. She urgently needs help. She has been waiting for help for the last 12 hours. The baby is crying.

2010-01-13 10:57:00

**Magnitude 7.0, 2010 January 12 21:53:09 UTC**

Location: 18.451°N, 72.445°W

Depth: 10 km (6.2 miles) set by location program

The January 12, 2010, Haiti earthquake occurred in the boundary region separating the Caribbean plate and the North America plate. This plate boundary is dominated by left-lateral strike slip motion and compression, and accommodates about 20 mm/y slip, with the Caribbean plate moving eastward with respect to the North America plate.

Haiti occupies the western part of the island of Hispaniola, one of the Greater Antilles islands, situated between Puerto Rico and Cuba. At the longitude of the January 12 earthquake, motion between the Caribbean and North American plates is partitioned between two major east-west trending, strike-slip fault systems -- the Septentrional fault system in northern Haiti and the Enriquillo-Plaintain Garden fault system in southern Haiti.

The location and focal mechanism of the earthquake are consistent with the event having occurred as left-lateral strike slip faulting on the Enriquillo-Plaintain Garden fault system. This fault system accommodates about 7 mm/y, nearly half the overall motion between the Caribbean plate and North America plate.

The Enriquillo-Plaintain Garden fault system has not produced a major earthquake in recent decades. The EPGFZ is the likely source of historical large earthquakes in 1860, 1770, 1761, 1751, 1684, 1673, and 1618, though none of these has been confirmed in the field as associated with this fault.

**Buses between Les Cayes and PAP getting through**

Buses between Les Cayes and PAP getting through

~~~~~

I am currently in Les  
Cayes, Haiti.

Yesterday, we heard that there was a crack in the road and was impassable near Tabion near Petit Goave. Today, the bus depot in Les Cayes said that a few buses were able to get through to PAP from here. This morning a bus and a car from Hope for Haiti left from Les Cayes to PAP, and they have just arrived so the road appears to be passable.

2010-01-13 03:19:00

Rue De La reunion

2010-01-13 06:21:00

**Border road down, Looting started in P-au-P**

I received this report at 6 pm EST, from relatives now in Petiion Ville, Haiti, relayed by phone to my cousin Clive d'Adesky in Miami.

FROM WHAT WE HAVE LEARNED THE BORDER ROAD HAS BRIDGES DOWN AND THE ROAD HAS CAVED IN, IN MANY PLACES.

THE PORT IS DOWN CAN'T RECEIVE ANY VESSELS, AS OF NOW. AIRPORT MAY REOPEN NEXT 24 - 48 HOURS.

FOR THE NEXT 5-7 DAYS, ONLY WAY IN IS VIA HELICOPTER. ANY PLANES COMING LIKELY ONLY MILITARY AS IT WOULD BE SIGHT ONLY LANDING..

LOOTING AND SHOOTING IN TOWN HAS ALREADY STARTED, THE JAILS CAME DOWN SO ALL THE PRISONERS ARE OUT ON THE STREET... A WAR ZONE.

OUR RELATIVE'S FATHER IN LAW GOT 8 BULLETS TO HIS CAR TRYING TO GO DOWN TOWN. THEY HAD TO TURN AROUND, LUCKILY ONLY ONE PERSON IN THE CAR GOT BRAISED BY A BULLET IN THE HEAD.

THERE ARE BODIES ALL OVER, THAT WILL BECOME A BIG PROBLEM IN DAYS TO COME, THAT MUST BE DEALT WITH AS A PRIORITY AS WELL.

2010-01-13 03:03:00

**American Citizen broken leg - Please Help**

Works in Port Au Prince for GBS (General Building  
Systems)

2010-01-13 07:23:00

**Update - Found family at Le Plaza Haiti hotel in Port-au-prince**

\*\*\*\*\* Update- Family was found - Looking for family staying at Le Plaza Haiti hotel.

Mother: Marie-Marthe Gardere, 71  
Cousin: Micheline Germain, 52

Both arrived at the hotel on Saturday. The hotel is located at 10, rue Capois (Champ de Mars) Port-au-Prince.

The hotel website says the building is structurally sound. They say that they will have information soon on "availability of the hotel for arriving aid workers, journalists, and others" but NO information on the status of hotel guests. If the web administrator is able to make updates - why not include survivor names??

If anyone has information on guests staying there, please contact me 646-342-3135.

2010-01-13 07:28:00

**Secours!! HELP!!**

Mon nom est HUGSON JEAN - Je vis actuellement à Boston, MA 02131. Mon père est âgé de 77 ans, a visité des Etats-Unis le mois dernier, et s'a retourné en HAÏTI Le 16 Décembre 2009. ma famille et moi avons parlé avec lui à la veille du tremblement de terre, et nous pouvons pas maintenant entrer en contact avec lui, et on demande si quelqu'un peuve nous dire qu'il est OK, et nous donner aussi la condition ou position de la zone entourante.

Merci!

My name is HUGSON JEAN -- I am currently living in Boston, MA 02131. My father is 77 years of age, has visited USA last month, and has gone back to HAITI on 16th of December, 2009. my family and I have spoken with him on the eve of the EARTHQUAKE, and we now can't get in touch with him, and wonder if anyone can tell us that he's OK. And also, give us the status of the surrounding area there.

**Food, supplies needed: Max Paul**

My father Max Paul is in Bourdon. His house and neighbors' houses have been seriously damaged. They are in need of food and water. There are approximately 20 people who are congregated on his street.

Max Paul lives in Impasse Inginac #7 which is in Bourdon. Here are the directions: When you're on Bourdon heading downtown, you make a left on Rue Garnier (it's before Bellevue). When you're on Rue Garnier, you make a right to Impasse Inginac (it's a 180 degree right). It's house #7 (on the left side). Google Earth Map to his house:  
<http://bit.ly/8XJ2D6>

Latitude: 18°31'57.16"N  
Longitude: 72°18'21.34"W

### **Large List of People - see description**

The following is a list of immediate relatives of my mother, Ketlie Camille (Neé Marie Ketlie Joseph) who lives in Nashua, NH USA. All of these relatives live within Port-Au-Prince. We are releasing this list in hopes that someone with access to a phone or internet in Haiti will see this and be willing to check in with our families on our behalf and pass along the message that we are trying to get in touch with them. We would greatly appreciate this. We can be reached via contact info above virtually 24-hours a day. My parents Nicholson & Ketlie Camille of Nashua, NH USA can be reached at +011 603 891 0517 God Bless, Rony Camille ### Augusta Trevil -- My Great-Aunt (the matriarch) lives at the following address Route Nationale No.1 Rue Hubert #61 Maïs Gate (Junction of Carrfour Vecent) This area is near the Toussaint L'Ouverture International Airport ALL LIVE WITHIN THE VINCITY OF AUGSTA TREVIL (ALL ARE NEIGHBORS) EACH OTHER on RUE DUVIVIER)

### **Tracing the missing and the dead**

DAKAR, 14 January 2010 (IRIN) - Some 2,000 people have registered the names of missing relatives on the International Committee of the Red Cross (ICRC) family links website, set up on 13 January to help families trace loved ones after Haiti's catastrophic earthquake that left tens of thousands dead and many more missing.

People in Haiti and abroad can register on the site the names of relatives they are trying to contact, and responses will be posted as they come in. Local hospitals, schools and other institutions can also post names of people found alive, injured or dead, said ICRC spokesperson, Anna Schaff.

Individuals have also set up websites to trace missing relatives and friends...

**Mother of Charles Darvey of NY, US citizen trapped  
in Carrefour**

US citizen and mother of Charles Darvey of NY is trapped under the ruins of her home at 300 Avenue Mavramboise (?), P-a-P, Carrefour. (Spelling of address/street uncertain)

I heard of this incident today when Charles called in from NYC to the Brian Lehrer show on WYNC. He has exhausted all avenues of communication trying to reach someone on the ground who can reach his mother and is desperately seeking someone to free her from the ruins of her home.

She called him indicating she is trapped and in need of rescue and water.

2010-01-14 05:42:00

### **US Citizen living in Haiti**

I'd like to report that my father, a us citizen, lives in Musseau. His name is George Sada. He is registered with the US embassy. He lives at #8 Rue Merisier Prolonge in Musseau. He is near Delmas 48 and Delmas 60. He can be reached by Rue Merisier or Impasse Roussan Prolonge.

I spoke with him on Weds morning at 3:30 and he seemed disoriented and could not tell us if he had enough food and water for a couple of days. We can no longer reach him and are very worried. He is 71 years old and a cardiac patient. He has medicine but we can't be sure he is taking it. He was afraid to go back into the house and we don't know if it is still structurally sound. He is alone and we can't reach anyone around him to go and check on him.

My mother used to work for the US embassy and we always keep in touch just in case something happens. Can you find out any information regarding my father? Maybe if there is a rescue team in the area someone can check on him. He told me that there was a hotel up the street from him that collapsed but that his immediate neighbors are ok.

Thank you for any information you can gather.

Christine Evans

**Food Distribution (WFP)**

WFP food distributions began on 13 January in Jacmel for approximately 3,000 people located around the airport. Distributions in Port-au-Prince are ongoing today. There are military escorts for a further 2,900 beneficiaries in three locations: Place Boyer, Villa Creole and Primature. These have been identified as areas where large numbers of people are concentrated.

### **Hopital Albert Schweitzer Haiti inundated with patients**

We were not affected by the quake - only small tremors. However, since last night we have been inundated by patients, mostly from PauP and mostly with leg and arm, as well as crushing, injuries. At 20:30, we are still receiving patients who come in the back of tap taps, open-back pickup trucks which serve as taxis throughout Haiti. Every bed, gurney and bench is occupied, and we continue to do lab tests, X-rays and surgeries. Our all-Haitian medical and nursing staff have been excellent, serving without a break for 20 hours.

2010-01-13 01:56:00

### **Partners in Health open Mobile Clinics**

In the Delmas section of Port-au-Prince, Dr. Patrick Almazor of PIH/Zanmi Lasante reports that he and several other doctors have set up mobile clinics. "We have a lot of fractures," he wrote in an email. "We are running out of meds, I'm on my way to St Marc [a facility operated by PIH's partner organization Zanmi Lasante] for supplies."

2010-01-14 09:44:00

### **Hundreds of Haitians being [medically] treated**

Hundreds of Haitians being treated in the DR border town of Jimani. They are in great need of supplies - sending several trucks Saturday.

2010-01-14 08:13:00

(near BRESMA II):

> Take Delmas uphill to the Carribean market. Turn left and cut over to Rte. Freres at the Texaco Station. The Lesely center/ motorcycle taxi stand is on your right (Delmas 105). Turn right into Delmas 105.

> Continue straight and down a steep hill that had one bridge completed and another under construction spanning a deep ravine. Continue straight to the second street. There is a tree on an island in the middle of the road. Shortly afterward the road splits. Take the right fork, which curves very sharply to the right and up a steep hill. The house is the property around which the road curves. Its gate is the first one on the right.

Bresma has 3 buildings in PaP : it appears Bresma I is okay (and those are the ones for which we had coordinates), and the children from Bresma II have been transferred there. Bresma II is listed as being a "little damaged". Bresma III also has damaged buildings, and children have been transferred to the guest house. Bresma III appears to be near Delmas 105, but can't find exact address. Looking for Bresma II now. Not sure if update on line 310 is more recent news.

> BRESMA II (big kids house)

**Road from Leogane to Jacmel blocked by landslides**

The road from Leogane to Jacmel blocked with landslides at  $18^{\circ}23.938'$   $-72^{\circ}38.277'$  (just north of the turn off to Trouin and Baudin) and is passable only on foot or moto. Transporting gas beyond that point will become very difficult until this is resolved.

2010-01-15 03:30:00

### **The Magnitude of a Disaster**

This densely populated area is said to be a "broken mess". Entire blocks have been destroyed and survivors have lined up on the streets with belongings salvaged from piles of rubble. The area has the highest jobless rate in the metropolitan area, with about two-thirds of adults unemployed.

2010-01-15 03:22:00

**UND/CDC in Leogane, camp for displaced people, no internet in Leogane**

UND/CDC place in Leogane (coordinates above), there is a large yard that is being used like a refugee camp for hundreds of people - lots of tarps held up by wooden posts and a few tents. They just got a drum of gas and are using it sparingly - apparently they've been running the generator for about an hour a couple times each day. They're not aware of any other place to get internet in Leogane.

2010-01-15 03:33:00

**WFP AIR OPS update**

WFP's UNHAS will begin a 10-seat Cessna Caravan shuttle between SD and PAP. To be operational in the next 24 - 48 hours. Schedule to be confirmed.

2010-01-15 03:41:00

**Trouin Catholic Church barely damaged, spontaneous camp, Episcopal church collapsed, need drinking water**

Trouin (coordinates of Catholic church, which had hardly any damage, are 18°21.962' -72°39.283'), there was another space where people are camping out like a refugee camp (we saw probably 60-70 people there this am, probably many more sleep there at night). Five people died when the Episcopal church collapsed there, and many houses are down. They said they are just about out of drinking water at the camp and will probably be going to the river to get their water but don't have anything to treat it. They said there is a safe source over a mountain but haven't been able to get there yet and may not be able to do so. Pere Frito, the Episcopal priest in Trouin, was in PAP during the quake. I got his #s from another guy - they are 3633-2787 (Digicel) and 3405-1700 (Voila), in case that helps anyone if we end up being able to do anything to get them chlorine.

2010-01-15 03:42:00

**ROAD conditions**

The route from SD to PAP (305) is open but congested.

2010-01-15 03:48:00

**Catholic Relief Services (CRS) distributing  
food/water at warehouses**

CRS is distributing food and water from its warehouses in the Haitian capital and the city of Les Cayes. CRS was able to respond immediately thanks to pre-positioned supplies in its Port-au-Prince warehouse. "We are fortunate to have had water in our warehouse," says Karel Zelenka, Country Representative for CRS Haiti. "We also trucked in family food kits from Les Cayes." CRS has a staff of 313 on the ground, with more personnel arriving daily. In the neighboring Dominican Republic, CRS is preparing food packages to feed 50,000 people. The packages are five-gallon buckets loaded with juice, sardines, sausage, peanut butter, nuts, granola bars, canned fruit, black beans and saltine crackers. CRS is also readying water storage containers, water purification tablets, hygiene kits, cookware and plastic sheeting in Haiti and the Dominican Republic.

2010-01-15 07:13:00

**Medical University Tabarre - 10,000 refugees on site - Medical supplies needed**

I received word this morning that both the Aristide Foundation for Democracy and the Medical University at Tabarre survived the earthquake. They are receiving refugees and injured people -- 10,000 people are there right now. There are 53 doctors on site now, no medical supplies left. They are literally five minutes from the airport -- over a road that is passable (Blvd 15 Octobre) in Tabarre. There is also ample room to store supplies, and a disciplined staff to manage them. Both sites have generators, but are running low on gas. And are running out of water and food. Toussaint Hilaire - local phone 491-4465

### **Rescuers Strain to Get Safe Water to Thirsty**

Shortly after arriving in Haiti Friday following a nearly 20-hour journey from the Dominican Republic, David Gazashvili, the head of emergency response for CARE, first had to find a shipment of water-purification tablets that had arrived at the airport. Two large pallets with enough tablets to treat water for 60,000 people had been shipped from Panama the day before.

## **Airport set up scheduled landing slot system**

### **UNHAS ANNOUNCEMENT**

Please note: a slot system for Port-au-Prince airport (MTPP) has been created.

\* Special temporary access procedures for MTPP effective 1001160001 UTC until further notice.

\* At the request of ICAO and Haiti's neighboring states in support of earthquake relief operations, the US government has established temporary air traffic flow management procedures for flights into MTPP (Port-au-Prince airport).

\* All fixed-wing aircraft flying to MTPP are required to be on an active IFR flightplan and prior to departure obtain arrival slot times from the Haiti Flight Operations Coordination Center. PHONE NUMBER 001-850-283-5477.

\* Arrival slot times are valid +/-20 minutes of the scheduled arrival time.

\* If unable to meet scheduled arrival slot times, contact the Haiti Flight Operations Coordination Center or your controlling agency to coordinate new slot times.

\* Departures from MTPP must comply with normal ATC procedures.

All operators are advised that fuel and other ground support services may be unavailable.

campus providing medical treatment**

GlobalMedic is now setup at the PaP University campus housing up to 30,000 displaced persons. Our medical team is working in a hospital and the water team has begun distributing water purification tablets. The team will be setting up an Inflatable Field Hospital in the coming days and deploying the water purification units.

2010-01-16 12:43:00

**ICRC says situation at clinic in Cite Militaire  
critical**

Cité Militaire, the situation is critical. Melissa, a 51-year-old nurse, is the single medical staff there. The building is empty, while patients are in the courtyard, with their relatives. There are no doctors. Melissa told the ICRC that they never came back after the earthquake and are most likely tending to their own families - and there is no medicine.

Health Lab.**

Temporary Field Hospital at National Public Health  
Laboratory.

2010-01-16 01:45:00

#### **USCG Port Assessment**

The road leading to the port is covered in fallen container boxes, the main building's roof and side walls are very badly damaged, out of five cranes 2 are not operable, 2 are inside the property away from the pier side, and 1 crane is not placed on a stable platform. The main pier is very badly damaged. Parts of the pier have broken off and are under water. Container boxes, building debris, fallen trees and garbage are floating in the water near the pier and also in the surrounding water outside the port. The south pier is intact, but the access road is not. However, it is expected that repairs can be carried out in a few days by Dominican contractor "Estrella" which will be inspecting the site on 15 Jan. Walls to container terminals have collapsed and access cannot be properly controlled. Berths 3 and 4 are under water and the adjacent RoRo ramp is broken off. The wharf is intact and so is the vacuvator, but the mill is collapsed and wheat milling will not be possible anymore. Apron of quayside concrete disappeared and docking is not possible. It is recommended that arriving vessels be re-directed to Cap-Haitien.

2010-01-16 01:48:00

### **Hospital updates**

Carrefour, Fontamura, Bizotton, Thor: Hopital

### **Child with Serious Head Injury**

Reports are coming from Hait..

Currently looking for urgent medical assistance for a little boy. Doctors who saw him believe he has a bone dislocation in the head and blood is filling and his head is growing. Blood needs to be drained and might need surgical intervention.

He is currently at St. Catherine hospital in Cité Soleil but he is just in observation and still can't have a scan. His name is Sam Séraphin. Father Jean Rénel and mother Dunelle.

Coordinates of reporter 29, rue Babirole, Pacot in Port-au-Prince. GPS coordinates: 18 degrees 31' 52.73" N, 72 degrees 19' 43.17" W.

### **Road Les Cayes-Port-au-Prince Impassable by car**

There is only one road from Port-au-Prince to Les Cayes and it is now impassable. One of the mountains that has to be climbed has split in two leaving a huge chasm, effectively cutting off means of transportation for people and goods. Other parts of the road are buried under rubble and landslides. People take buses or tap-taps, disembark to traverse the obstacles on foot and then try and pick up transportation on the other side.

### **woman trapped in bank sends text messages**

Urban Search and Rescue believes they have survivors trapped in a bank, have been receiving text messages saying "help i can't take it any more" and heard from someone else in the same building. Earlier the search dogs missed their scent, once they returned and drilled a hole- the dogs picked up the scent. They will be there all night trying to find the people.

**Hotel Ville Therese Collapsed, bodies under the structure**

My sister's husband, Alain Villard, owns a small hotel villa in Petion-Ville called Hotel Villa Therese. The hotel is located at #13 Rue Leon Nau (Nerette) in Petion-Ville. Attached are images of before and after. you can also view the hotel at <http://hotelvillatherese.com>

As of this moment, they have located three dead bodies in the rubble. There are more bodies (parts) in the structure. Most are foreign nationals (USA and Netherlands) so far. They are doing this work with no outside assistance and are not able to ask for help.

Purpose of this iReport is to seek attention so that perhaps UN or other rescue personnel could help. Please send assistance asap!

#### **Port Damage Report Jan 16 1630z**

The port is not operational. See more photos of the damage. Niels Olsen, Port/Cpt in Port au Prince, provided the following update:

- \* South pier is intact, but the access road is not. However, it is expected that repairs can be carried out in a few days by Dominican contractor "Estrella", which will be inspecting the site on 15 Jan.

- \* Walls to container terminals have collapsed and access cannot be properly controlled.

- \* Berth 3 and 4 are under water. The adjacent RoRo ramp is broken off.

- \* The wharf is intact and so is the vacuator, but the mill is collapsed and wheat milling will not be possible anymore.

- \* Apron of quayside concrete disappeared and docking is not possible.

- \* It is recommended that arriving vessels should be re-directed to Cap-Haitien.

### **Israeli field hospital at Antoine Izmary soccer field**

The IDF Medical and Rescue Team set up a field hospital in Port-Au-Prince and is beginning to treat patients there. The field hospital is prepared to receive dozens of ambulances evacuating injured children from the different disaster struck areas. Between Friday night and Saturday, dozens of truckloads of medical and logistical equipment were unloaded and the field hospital set up.

The field hospital includes 40 doctors, 25 nurses, paramedics, a pharmacy, a children's ward, a radiology department, an intensive care unit, an emergency room, two operating rooms, a surgical department, an internal department and a maternity ward. The hospital can treat approximately 500 patients each day, and in addition will perform preliminary surgeries.

**Hopital Sacre Coeur in Milot has \*ONLY 9\* patients! Capacity for 100 more! - CONFIRMED!**

UPDATE SUNDAY Jan 17, 8:00 pm

We have NO idea why choppers are not coming. We have been on the internet, media, military contacts all day trying to get the word out. PLEASE do anything you can.

UPDATE as of Sunday, Jan 17, 3:40 pm Eastern Time:

We received 5 patients via a single chopper about an hour ago. We received 4 patients yesterday. We have a total of 9 patients. We are ready and capable to handle \*100\* injured people. We have a full-service hospital with two ORs, a trauma team and an orthopaedic team ready to serve. They can land helicopters in the soccer field. I can send anyone who needs the Google Earth coordinates and labeled aerial photos for landing. The soccer field will be LIT WITH HEADLIGHTS from trucks tonight. We have an ambulance - we are ready - we do NOT need to be contacted in advance. PLEASE BRING THE PATIENTS TO US!
